Why Partner with JumpCloud Professional Services All Access?

About JumpCloud's All Access Service

With our **Professional Services All Access** premier offering, you can design your own white-glove experience based on your company and your clients' needs. This service allows you to design how you want to best use your Professional Services hours, with access to implementation consultation, Hands-On-Keyboard (HOK) implementation, migration, custom scripting, and Technical Account Manager (TAM) services.

Advantages

Design your own path: With our Professional Services All Access premier offering, you can design your own white-glove experience based on your company and your clients' needs.
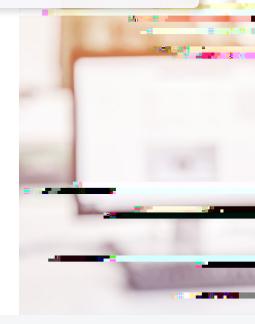

Flexibility: You simply purchase one package and use your hours each month as needed based on your clients' needs.

One package, all services: You can choose to use monthly Professional Services hours toward JumpCloud implementation consultation, Hands-On-Keyboard implementation, migration, custom scripting, and Technical Account Manager services based on your needs.

- Receive a dedicated consultant to assist with a client's implementation project or have a Professional Services Engineer (PSE) do the implementation on your company's behalf.
- Receive a dedicated technical point of contact who works across JumpCloud to assist with your business or technical requirements based on different client needs.
- Have a PSE migrate a client from their current directory to JumpCloud for you.
- Get engineering support to build PowerShell and API custom scripts for multiple clients' JumpCloud environment.

Does access to other Professional Services offerings from JumpCloud interest you?

Does it matter to be elevated for a technical account engagement to implement, deliver the implementation, custom scripting, or advanced guidance?

Does it matter to receive a dedicated resource such as a consultant implementation leader to be able to declare set the time needed to build and architect?

JumpCloud's All Access Service can help.
